

## Partnership Driven Solutions

Our goal is to understand and exceed our customers' needs in the areas of **automation, fluid power, and motion control**. We will develop mutually beneficial relationships with our customers, vendors, and employees through loyalty, respect, education, and stewardship of resources.

## Our Expertise

Your partner in total machine safety, motion control, hydraulics, pneumatics, vacuum, & lubrication solutions.

We bring together expertise in manufacturing, mechatronics, & engineering to deliver precision-engineered motion mechanisms. Shop on [dec-marine.com](http://dec-marine.com).

Where innovation meets reliability to elevate the standards of fluid management in the life science industry.

Strategic partner to manufacturers, integrators, & machine builders in automation and electrical control solutions.

### Corporate Office

3891 Clay Avenue SW  
Grand Rapids, MI 49548  
(616) 538-8340

### Lakeshore Office

1705 Airpark Drive  
Grand Haven, MI 49417  
(616) 842-0607

### Greater Detroit

South (734) 545-2184

### North Indiana

(616) 370-3905

[DonaldEngineering.com](http://DonaldEngineering.com)

## Industrial

Quality components for a lower total cost of ownership.

### Industrial Safety

Fluid Power (Hydraulic & Pneumatic)

Vacuum

Lubrication

## Mechatronics

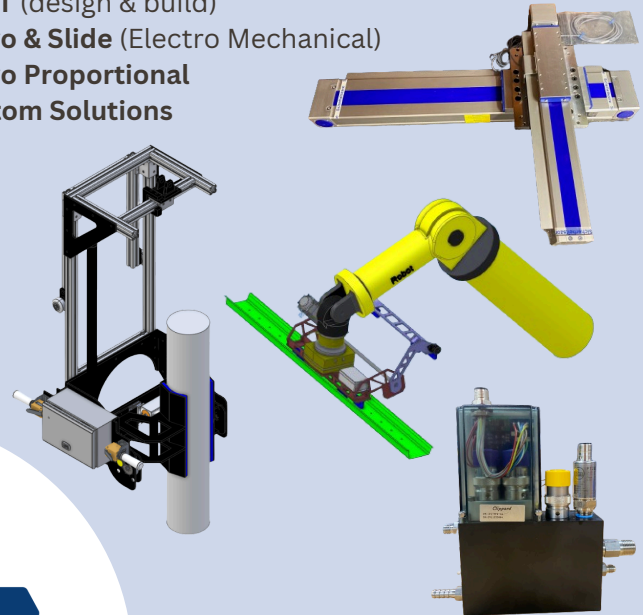

Strategic partner for automation solutions.

EOAT (design & build)

Servo & Slide (Electro Mechanical)

Servo Proportional

Custom Solutions

## Marine

Custom automation solutions for marine applications.

Marine specific motion control

TV Lifts

Seat Motion

Durable actuation (salt water/outdoor)

Custom Solutions

Shop Now!  
[dec-marine.com](http://dec-marine.com)

## Medical

Providing custom-engineered life science solutions.

Precise fluid control (flow, pressure, gas mixing)

Sterile & drip free fluid management

Tubing

Custom Solutions

# Donald Engineering Vendor Partners

Partnership Driven Solutions

Miniature fluid power product manufacturing by quality people that pride in delivering quality, precision products. \*

Space efficient, quality linear and rotary solutions using air, hydraulic or electric.

Hydraulic valves, pumps, & power unit systems.

Precision linear roller screw actuators for high speed, high force and high accuracy.

Linear fluid power actuators designed to standards and for custom applications not found in a catalog.

High performance hydraulic pump, valves, rotary actuators and systems.

Innovating Fluid Control Solutions for a safer tomorrow. Leading the world in poppet Technology. \*\*

Superior clamping and gripping solutions for precision automation. \*  
\*\*

Intelligent sensing for safety & motion detection

Motion control multi axis

Quick connect intelligent/quality

Rotary actuators

Air tool accessories

Mobile hydraulics

Hydraulic accumulator

Linear & rotary rod locks and press safety catchers

PLC on a chip & custom solutions

Linear rodless technology

Adapters & hoses

Pneumatic cylinders & motion control technology

Hydraulic disconnects

Unique solutions for fluid power distribution around the plant or shop

Electrical connectors

Unique hydraulic flange technology, check & ball valves

Hydraulic solutions for work holding

Fluid power accessories

Complete range of PLC's

Vacuum technology cups & accessories

Serial bus gateways & electronics connector cable solutions

Filtration technology

Servo-motors & amplifiers, motion controllers, & gear box solutions

Micro-lubrication

Fluid power fitting & adapters

\* Currently not distributed in Indiana by Donald Engineering.

\*\* Currently not distributed in East-Michigan by Donald Engineering.
